Principles of Inclusive Practice: Pupils with SEND

There are 4 broad areas of SEND that need to be considered when observing, planning and teaching lessons that support the needs of pupils with SEND:

1. Communication and interaction difficulties
2. Cognition and learning needs
3. Social, emotional and mental health difficulties
4. Sensory and/or physical needs

University of Hertfordshire UH

Focused Observation of Practice (FOP): Pedagogy (Dialogic Practice & Literacy)

Comments: these can be things that you notice and questions you would like to ask to find out more

Reflections: If you can, please discus your questions and comments with the teacher that you have observed

N.B. If being used by a student teacher to observe a lesson, we suggest you focus on only 1-2 of the areas listed below.

Teacher's Name/Subject..... Class/Set..... Date/Time.....

Explanations, exposition and narrative • How did the teacher explain the purpose, content,	**COMMENTS/QUESTIONS**

activities and outcomes of the lesson? How did they check pupils' understanding? How did they address any misconceptions or misunderstandings?
- Did the teacher offer any prolonged explanations, exposition or narrative (i.e. storytelling)? Why do you think they did this? How was it linked to the subject knowledge and content of the lesson? How did they ensure that pupils were listening, engaged and motivated? How did they check pupils' understanding? How was this linked to the next learning activity?

Questioning

- When does the teacher ask questions in the lesson? What do you think the purpose of the questions is? (checking pupil understanding? Sharing ideas? Different points? Etc.)
- What type of questions are asked? (Closed or Open questions? Knowledge retrieval? Reflection? Etc.)
- How does the teacher ask questions? (Cold calling? Pause, pose, pounce? Think, pair, share? Hands up or down? Etc.)
- How does the teacher encourage pupils to listen and respond to questioning? (Movement around the classroom? Non-verbal cues? Gestures? Praise and encouragement? Etc.)

Collaborative learning

- When does the teacher use collaborative learning? (pair work or group work?) What do you think is the purpose of the collaborative learning? How does it link to the learning objectives? What does the teacher want the pupils to know, learn and/or do?
- How is the collaborative learning organised? (Neighbouring pupils? By ability? Friendship groups? Random?)
- What are the 'ground rules' or expectations of collaborative working? How are these promoted, reinforced and maintained?
- How does the teacher encourage pupils to maintain focus and work together in a positive way?
- What is the outcome of the collaborative learning? How does the teacher bring the learning back together and move on?

Vocabulary Development

- Was there an opportunity for any common word roots to be identified and explored during the lesson?
- Are opportunities provided for independent word-learning activities? e.g. dictionary research, spelling tests, vocabulary-specific graphic organisers, etc.
- How is subject-specific vocabulary (Tier 2 and Tier 3) defined and signposted? (Tier 2 and Tier 3) in context? Are classroom displays of keywords drawn on during relevant lessons?

Reading

- How did the teacher draw on pupils' prior knowledge to contextualise new reading material?
- Were students asked to make inferences and/or predictions during reading? What impact did this have on their engagement and comprehension?
- How did the teacher clarify pupils' understanding of words/phrases/sections? How were pupils' misconceptions identified and corrected?
- Was there an opportunity for key information to be

University of Hertfordshire UH

summarised after reading? What impact did this have on pupils' thinking and learning? **Writing** • Was independent/pair/group planning time provided to motivate and support pupils? • Was a genre-specific checklist and/or a generic writing list provided to help pupils identify and include specific writing features? • Were collaborative writing opportunities offered before setting independent writing tasks? • Was modelling/scaffolding used to develop confident writing at word-/sentence-/text-level. • Were opportunities provided for editing and redrafting?	

REFLECTIONS AND NEXT STEPS

What was successful about how dialogic practice and/or literacy development was used within the lesson and why?

-
-

How will you use this observation to help you with your planning and teaching?
